Policy upon Services of General Interest”
With the support of the Erasmus+ Programme of the European Union

The Jean Monnet Excellence Centre

Newsletter and Activities
January - July 2022

Welcome to Jean Monnet Excellence Centre

The aim of the Jean Monnet Centre of Excellence at the Department of Economics, Management and Quantitative Methods (DEMM), University of Milan, is to advance teaching, research and public engagement on European research and Innovation Policy and its impact on sustainable Services of General Interests (SGIs).

The Centre will focus on the socio-economic and environmental impact of European research infrastructures and space infrastructures upon SGIs.

The study of research infrastructures will be based on the analysis of innovative case studies such as, for example, the applications of Earth Observation e.g., the ability to gather information on different characteristics of our planet through remote sensing technologies.
